

EMI-3000: Extended Maintenance Interval-Trailer

*Extend your maintenance interval,
reduce your operating cost*

EMI-3000 will:

- **Reduce** clean-up and disposal cost
- **Reduce** environmental impact with less spillage and less waste
- **Extend** engine life with improved, highly efficient filtration
- **Reduce** scheduled maintenance cost by up to 40% over competition

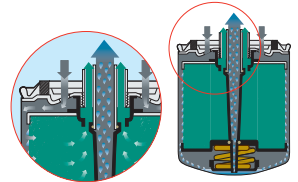

The EMI-3000 package:

- 
3000 Hour Dual Lube Oil Filter
Patented dual stage filter extends maintenance interval
 - Highly efficient full flow element provides clean lubricant to the engine– a metered amount of oil is further filtered through the bypass element
 - Filter head is retrofittable to older engines

- 
3000 Hour Fuel Filter/Water Separator
Patented filter reduces frequency of filter changes and protects engine
 - Filter media removes water before it can damage fuel system components
 - Extends engine life by avoiding corrosion caused by water
 - Fits on existing filter head

- 
3000 Hour Cyclonic Air Cleaner and Filter
Patented design lasts longer and reduces noise
 - Durable cleaner has long lasting, reusable housing with replaceable inner element for easy service
 - Air entering cyclonic separator housing develops a vortex action: heavier dirt particles are centrifugally extracted before air enters the element
 - Evacuation valve automatically discharges heavier particles as they collect

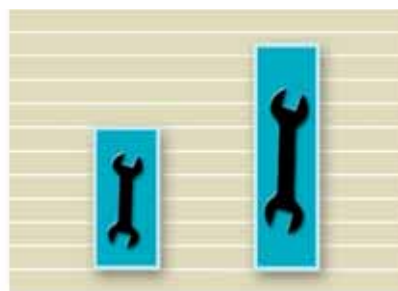

- 
12,000 Hour (service interval) Coolant
Most advanced extended life coolant available
 - Up to 12,000 hours between servicing
 - Silicate and phosphate free to prevent particulate and deposit formation in coolant

- 
High Grade API CG - 4 Mineral Oil
 - Dispersancy additives hold carbon particles in suspension to minimise filter clogging, stabilize viscosity and reduce engine wear
